8-7.1 **Medical Arbitration.** If any dispute shall arise between the parties hereto as to the application of the foregoing provisions of this Section relating to the physical or mental condition of any employee at any time, then it shall be considered as a grievance by the parties, and in the event that it cannot be so adjusted, it shall then be submitted to an impartial physician provided notice of its intention to do so is given by either party to the other within forty-five (45) days following the decision which results in disagreement. The impartial physician shall be selected by the physician for the Company and the physician designated by the Union, and the decision of such impartial physician shall be conclusive and binding, and the expenses of such impartial physician shall be borne equally by the Company and the Union.

Employees who fail to qualify can use days over the number required to qualify in the three prior calendar years to meet the 220-work day requirement. Employees may select only such jobs as they currently hold, or for which they have previously qualified, or for which they are currently on trial.

It is understood, however, that in the event that no Bus Operator position anywhere in the system is available to a Bus Operator, and further provided that there is a vacant Rail Operator position, that Operator will be placed in the vacant Rail Operator position even though he or she has not previously qualified for that position. Where there is more than one (1) employee in the affected job classification in the department, employees shall be demoted or laid off in the inverse order of their Company Seniority except as otherwise provided in this Agreement. For the purposes of this Agreement the term "emergency temporary cancellation or curtailment of work" shall refer to any temporary cancellation or curtailment of work caused by a shortage of buses or cars, breakdowns, snow storms, floods or other extraordinary weather conditions or by reason of a fire or other catastrophe damaging to such an extent as to cause the closing of any facility or a substantial portion thereof or by reason of lack of fuel, lack of spare parts or materials necessary to repair equipment, or by reason of power failure that prevents necessary maintenance of equipment, or caused by acts of God or other causes beyond the control of the Company. In the event of such emergency temporary cancellation or curtailment of work such notice of layoff as provided for in Section 10-7.1 shall not be required where such emergency temporary cancellation or curtailment of work results in the temporary layoff of employees. In the event of such emergency temporary cancellation or curtailment of work, employees may be laid off in inverse order of their respective departmental seniority.

the job involved, he or she will be assigned thereto and will be paid the rate thereof commencing the first day of the payroll period immediately following the end of the ten (10) actual work day trial. If at the end of the ten (10) actual work days he or she is not able to produce the quantity and quality of work normally required of an employee in the job involved, he or she may take the next lower job which is available to him or her under the layoff procedure set forth herein.

If an employee whose job has been discontinued has not previously passed an examination for the job he or she selects but in the opinion of the Company he or she has the ability, special qualifications and aptitude to fully perform the duties of such job, he or she may be assigned thereto conditionally at his or her then attained rate for a period of ten (10) actual working days at the end of which time he or she will be given a written examination by the General Supervisor. If he or she passes the examination with a grade of sixty-eight percent (68%) or above and is able to produce the quantity and quality of work normally required of an employee in the job involved, he or she will be considered qualified for the job and will be paid the rate thereof commencing the first day of the payroll period immediately following the date of the examination. In the event of his or her failure to pass the examination or to produce the quantity and quality of work normally required of an employee in the job involved, he or she may take the next lower job that is available to him or her under the layoff procedure set forth herein.

A bus or train operator transferring to another station under such circumstances shall carry his or her Departmental Seniority to the station to which he or she is transferred.

10-7.3(b) Bus and Rail Station Clerks. If any Station Clerk position is discontinued, the employee holding that position may replace another Station Clerk at any location, provided that he or she has greater company seniority than the employee being replaced. A displaced bus or rail Station Clerk, who is currently employed, shall have the right of recall (without time limits as specified in Section 10-17.1) to the next open Station Clerk position. If

the displaced Station Clerk declines the next open Station Clerk position, then he or she will forfeit any recall rights they have under this section.

A bus or train operator who is also a qualified extra station clerk and who is laid off from any station and transferred to another station under the circumstances set forth in Paragraph 10-7.3(a) may, in the event of a vacancy occurring for a regular station clerk, return to his or her former station and fill such vacancy, provided (i) his or her Departmental seniority is greater than Departmental seniority of any other qualified extra station clerk then employed at such station, (ii) he or she has continued on the extra station clerk list at the station to which he or she was transferred and (iii) he or she has not forfeited his or her opportunity to return to fill a vacancy for bus or train operator at his or her former station.

10-7.3(c) Traffic-Checker Clerks. In the case of a reduction in the force of traffic-checker clerks, they shall be laid off in the inverse order of their Company Seniority. Provided they previously held a job in another department, and are then qualified to perform the duties of such job, they may return to such job and the Departmental seniority they previously held at the time of their transfer shall be restored to them. They shall be recalled to fill vacancies on the basis of such seniority, provided that they are thereafter continuously employed by the Company in another capacity.

Such notice shall be posted in the location in which the temporary vacancy exists for not less than three (3) business days with the understanding that if, as, and when said job is permanently vacated by the employee who theretofore held such job, the permanent vacancy will be posted and the vacancy will be filled in accordance with the procedure herein set forth for filling permanent vacancies. Such posting shall be made not later than four (4) weeks from the first day of the illness. Such temporary vacancy shall be posted immediately in accordance with the above when the Company has knowledge that the vacancy will exist past the expiration of four (4) weeks. Notwithstanding the above, should the person who vacated such job remain on sick leave of absence for six months or more, such job shall be posted and filled by the Company as a permanent vacancy in accordance with the procedure for filling permanent vacancies as set forth in this Section. Helpers who were hired on or after November 1, 1987 may not bid on temporary vacancies in the Maintenance Department, except for temporary vacancies in the Helper with Tools classification. An employee seeking to fill a temporary vacancy must be qualified in the same manner as if it were a permanent vacancy under Section 10-8.2, i.e., the employee must possess the minimum skills or education necessary to commence the training period.

In the event of an applicant's failure to qualify under such procedure, he or she shall be returned to the location from which he or she was transferred or to his or her previous job, whichever is applicable, and his or her department seniority therein shall be restored to him or her.

It is understood that if an employee successfully transfers from one location to another location pursuant to the above bidding procedure, such employee shall not be permitted to transfer to another location while on trial for the job to which he or she transferred.

It is further understood that if an employee fails his or her trial period or examination or elects to terminate his or her trial period after initially being awarded a bid, such employee shall not be permitted to reapply for the same job category for six (6) months from the date he or she is returned to his or her previous job category unless he or she is recommended for the job by his or her supervisor or submits acceptable proof of having taken positive off-the-job action to further his or her job knowledge.

Nothing herein shall prevent the Company from filling any job by the promotion of any employee or the employment of any person who, in the judgment of the Company, has special qualifications, training or aptitude therefore which the Company believes was not possessed by any employee who may have applied for such job. However, if the Company hires from the outside, it shall require any new hire to possess at least as great a degree of skill or education as were required for Company employees to be considered.

A combined list of the following, in the order of their Subdivision Seniority in such subdivision, shall be considered for filling such position:

(1) Applicants from within the subdivision in which the vacancy exists.

(2) Employees who within a period of not more than three (3) years previous thereto were permanently employed full time in such a position within the Unit in such subdivision and who were required to vacate such position under the provisions of Paragraph 10-7.4(b) herein. In the event that such an employee is notified that he or she may have the opportunity to fill the open position, he or she shall within three days after the Company notifies him or her that such position is open, notify the Company of his or her intentions with respect to filling such position.

(3) Employees who within a period of not more than three (3) years previous thereto were permanently employed full-time in such a position within the Unit in such subdivision and who were laid off therefrom severed from the Company's employ and who are eligible for recall under the terms of Paragraph 10-17.1 herein.

10-9.2(a) When by reason of promotions in a subdivision, or for other reasons, a permanent non-supervisory position is open in any subdivision which is not filled under the foregoing procedure, then before the position is filled by the employment of a person not then in the employ of the Company, any employee of the Company in the Office and Clerical Unit who has made application pursuant to the notice posted under Section 10-14 and who has then been continuously in the employ of the Company for the then last preceding one (1) year or more shall be considered. A combined list of the following, in the order of their Company seniority shall be considered for filling such position:

(1) Applicants from employees who are qualified to apply as set forth above.

(2) Employees who within a period of not more than three (3) years previous thereto were permanently employed full time in such a position within the Unit and who were laid off, severed from the Company's employ and who are eligible for recall under the terms of Paragraph 10-17.1 herein.

10-9.2(b) In considering applicants for promotions, due regard shall be given to their experience, qualifications and aptitude, and if the Company believes that an applicant is qualified for such position, it may permit him or her such a probationary period in such position as it deems necessary to fully satisfy it of his or her qualifications and aptitude to fully perform all the duties of such position. Such probationary period shall be sixty (60) working days, during which time if the Company decides such employee is not qualified to perform that position, the employee will be transferred back to the position from which he or she originally transferred. If during the probationary period the employee decides not to fill such vacancy, that employee will be permitted to transfer back to the position from which he or she transferred. If either of these situations occurs, all other employees who transferred or were promoted as a result of the first employee's promotion will be returned to the last positions they permanently held before the promotion of that employee. If at the conclusion of such probationary period the Company is fully satisfied, then such applicant shall be promoted to such position.

The Company shall have the right to post vacancies on a conditional basis that are created by employees being on probation under the terms of this section. If the employee who vacated the position that was posted conditionally successfully completes his/her probationary period, the "conditional" status will be removed from the position, and the employee who filled the vacant position will be permanently assigned to the job upon the completion of his/her probationary period.

10-9.2(c) However, nothing herein contained shall prevent the Company from filling any position which at any time may be vacant by the promotion of any employee, or the employment of any person, who in the judgment of the Company has special qualifications, training or aptitude therefor, and which the Company believes is not possessed by any employee who may have applied for such position.

10-9.2(d) If a permanent position is to be filled within the Office and Clerical Unit, the procedures set forth above will be used to fill the vacancy. Employees holding temporary Extra Clerk positions will be given second preference in filling permanent Office and Clerical positions.

10-9.3 **Content of Notice of Vacancy.** Any notice so provided to be posted shall state the position that is open, its location, the duties thereof, and qualifications therefor, and the wage rate of a beginner in such position, and a copy of any such notice shall be given to the Secretary of the Union.

10-9.4 **Wage Rate.** Any employee, who is promoted to a position in which the established wage rate of a beginner is less than his or her then present rate, will not be required to suffer any decrease in his or her rate of pay, provided the rate he or she is then presently receiving is not more than the established maximum rate for the position to which he or she is promoted.

10-10 Procedure for Promotions and Filling of Vacancies in the Bus and Rail Transportation Departments.

10-10.1 Vacancies in Permanent Bus Operator Positions. When there are permanent openings for a Bus Driver position at any station a notice shall be posted in all bus and rail stations of that fact. Any non-probationary Bus or Train Operator desiring to switch locations (or in the case of a Train Operator desiring to return to Bus Operator status) may complete a transfer form that will be available at each station providing, (i) he or she has worked at his or her existing bus station for at least the previous three (3) years after having exercised his or her option under the procedures set forth herein; or (ii) in the case of a Train Operator he or she has worked as a Train Operator for a minimum of three (3) years. On the transfer form the Bus or Train Operator must indicate what bus station he or she desires to be transferred to, provided, however, that the Train or Bus Operator may only select a single location. Any transfer form on which more than one choice of a station is indicated by the Operator will be deemed null and void as if no transfer form has been completed. In order to be considered, such transfer form must be turned into his or her Transportation Supervisor or Operations Manager within five (5) business days (Monday through Friday) of the date of the posting. Any transfer forms turned in later than five (5) business days shall be deemed null and void as if no transfer form has been completed. Using departmental seniority, to the extent that there are available openings, the Company shall grant the transfer request and shall inform the Bus or Train Operators who are to be transferred of the date on which they are to report to the new location. Bus and Train Operators who are granted such transfer must transfer to the new station on the date indicated by the Company and once the Bus or Train Operator turns in his or her transfer form, his or her choice and request for transfer shall be irrevocable. If a Bus or Train Operator is transferred to a different location at a time when a picking of runs is not occurring he or she shall be placed on the extra board at such station. If such Bus or Train Operator is transferred at a time during which there is a picking of runs as provided in Section 12-25 he or she shall pick at his or her new station. It is agreed that if such transferred operators are required to learn the bus routes at the new location by means of riding on buses operating on those routes, the Operator of such bus or buses shall not be entitled to the allowance provided for in Section 12-14. It is agreed that Bus or Train Operators transferring to a new location shall not carry with them any extra bus or extra rail clerk status. With respect to vacation time, Bus or Train Operators transferring to a different station may only use their departmental seniority to pick vacation weeks that are open as of that time, but they will be eligible to use departmental seniority to pick vacations at the time of the next vacation picking. Bus Operators and Train Operators transferring to a different location shall carry to their new station their departmental seniority. It is understood that a Bus Operator who voluntarily transfers to another location during a system pick, or when a line is moved to another location, will be considered as having exercised his or her rights under the procedures set forth herein. Bus Operators who are required to change their location involuntarily as a result of a system pick; forced reduction; or when a line is moved to another location, shall not be required to remain for three (3) years at the location to which they were forced before they may attempt, under this section, to switch locations.

After Bus and Rail Operators' requests to transfer have been processed, a notice advertising the vacancies that exist at specific stations will be posted for bid by other employees within the bargaining unit.

10-10.2 Temporary Vacancies in Train Operator Positions. The Company shall establish a group of Temporary Train Operators from among Bus Operators who desire to become Temporary Train Operators. The Company shall determine the size of the group of Temporary Train Operators, provided that the number of Temporary Train Operators shall be at least four (4). Bus Operators in the group of Temporary Train Operators may be called upon to work as Temporary Train Operators instead of or in addition to their normal work as Bus Operators when a need arises for a Temporary Train Operator. The Company shall be free to select from among the group of Temporary Train Operators the Bus Operator who shall fill the vacancy, except that the Company shall use its best efforts to give each member of the group as much of an equal opportunity to serve as a Temporary Train Operator, as efficiency in the operation of the bus and the rail system permits. The group of Temporary Train Operators shall be filled by the Company posting for four (4) business days in each bus station a notice of a vacancy in the group of Temporary Train Operators. Any Bus Operator who indicates in writing during the posting period a desire to be included in the group of Temporary Train Operators shall be interviewed by the Company. From among those applicants who have the qualifications to become Train Operators, the Company shall select from among such Bus Operators whose qualifications and abilities are relatively equal to fill the vacancy, the most senior, using departmental seniority.

10-10.3 Permanent Vacancies in Train Operator Positions. When a permanent position of Train Operator is needed, employees in the Department shall have the right to bid for the permanent vacancy with Bus Operators who have worked at their existing bus station for at least the previous three (3) years as set forth in Section 10-10.1 having first preference. If the regular vacancy is still not filled before a new employee is hired, employees in other departments shall be given the opportunity to cross-bid into the Train Operator position pursuant to the provisions of Section 10-13. The applicant so selected to fill the regular vacancy shall be permitted to transfer from his or her former position to the Train Operator position for a probationary period of sixty (60) working days, which commences upon satisfactorily completing the training program. During the probationary period if the Company decides such employee is not qualified to perform that position, the employee will be returned to his or her prior position, or if the employee decides that he or she desires not to fill such vacancy, the employee will be permitted to transfer back to the position from which he or she transferred. In the case of Temporary Train Operators becoming permanent Train Operators, the probationary period will be credited with days worked as a Train Operator while classified as a Temporary Train Operator.

10-10.4 Temporary Positions. Any Operator who as of April 1, 1991 holds the status of a Temporary Train Operator or Extra Station Clerk who declines a full-time position will be dropped from a "temporary" or "extra" list pertaining to same.

Those operators who, as of April 1, 1991, hold the status of Temporary Train Operator or Extra Station Clerk who turn down a full-time position may reapply for a subsequent full-time position at a later date when such openings occur.

Any employee who was removed from a list of Temporary Train Operator or Extra Station Clerk due to his or her declining of a full-time position may rebid on a subsequent vacancy for such a temporary, relief or extra position if he or she desires. Recertification to such a temporary, relief or extra position may be required if the Company deems necessary.

The appointment to all temporary, relief, or extra positions shall be based upon current practice.

Operators who hold a "temporary" or "extra" position as a Train Operator or Station Clerk will be permitted to refuse a "temporary" assignment two times during a 12 month period or extra assignment two times during a twelve (12) month period. Those who refuse an "extra" or "temporary" assignment for the third time within a 12-month period will be permanently removed from the list pertaining to same and barred from bidding into such "temporary" or "extra" position at any future date.

An Operator may only hold one "temporary", "extra", or "relief" position within the Company at any one time. However, an Operator will be allowed to exchange one extra or temporary or relief position for another.

If a regular full-time Train Operator or Extra Station Clerk position is to be filled, it shall be posted and filled in accordance with the normal procedures applicable to that position except that anyone who becomes a temporary Train Operator or Extra Station Clerk after April 1, 1991, shall not be given first or special-preference for such regular opening by reason of his or her "extra" status.

The Company agrees to attempt to maintain a system total of seven (7) Temporary Train Operators and per station three (3) Extra Station Clerks.

10-10.5 Transfer of Bus/Rail Station Clerks. All bus/rail Station Clerks transferring to a different location shall carry their departmental seniority to their new location.

10-10.6 Conditional Jobs in the Bus and Rail Transportation Dept. A position open as a result of a termination or a job that is the subject of a dispute will be deemed a conditional job status until the grievance procedure has been finalized. In the event that a grievance for either of these situations is sustained, the person occupying the job will be returned to his /her original position and will resume his/her original seniority. An employee in such a conditional job may bid on another job in the same department to move out of the conditional job, using his/her original seniority.

10-11 **Procedure for Filling Vacancies in the Station/Rail Department.** Before new employees are hired to fill a position of Station/Rail Ambassador, the Company shall post the opening of Station/Rail Ambassador under Section 10-14.

10-13 **Cross Bidding.** For purposes of this section, the term "department" shall refer to the three (3) separate departments defined in Section 10-2.1, 10-2.2, and 10-3, and the provisions of this section shall only apply to bidding between departments as defined in such sections and not to bidding within such departments, except as otherwise specifically provided in this Agreement.

10-13.1 If a permanent vacancy is not filled in any department in accordance with the procedure set forth in this Section 10 of the Agreement, full-time active employees from departments of the Company other than the department in which the vacancy exists who submitted applications pursuant to the posting required by Section 10-14 shall be considered in accordance with Section 10-13.3.

10-13.2 If a permanent vacancy is not filled under Section 10-13.1 before a new employee is hired, laid off full-time employees from departments of the Company other than the department in which the vacancy exists who submitted applications pursuant to the posting required by Section 10-14 shall be considered in accordance with Section 10-13.3.

10-13.3 Applicants, in order of their Company seniority, shall be interviewed by a managerial employee of the Company for the purpose of determining the applicant's qualifications and background to fill such vacancy. Such interview shall be similar to that for new hires for such position. In addition to such interview, such employee shall be required to satisfactorily perform any and all tests and other procedures required by the Company to be performed by an applicant who is not a current employee of the Company, and such applicant must meet any and all additional requirements for the positions such as possessing tools and appropriate licenses. If the Company determines that one of the applicants is qualified to fill such vacancy, such applicant shall be permitted to transfer from his or her department to the department in which the vacancy exists for a probationary period of sixty (60) working days during which time if the Company decides such full-time employee is not qualified to perform that position, the employee will be transferred back to the position from which he or she transferred or if the employee decides that he or she desires not to fill such vacancy, the employee will be permitted to transfer back to the position from which he or she transferred. During such probationary period, the full-time employee shall be paid at the lower of (1) the rate he or she was earning in his or her former position at the time of transfer or, (2) the starting rate of the position to which the employee transfers. Upon the satisfactory completion of such sixty

(60) working days probation period, such transferee shall be considered a permanent employee of the department and subdivision in which the vacancy existed and shall have seniority in that department from the date of transfer forward and shall not retain the seniority he or she had in his or her previous department. After satisfactorily completing his or her probationary period, the employee shall receive all increments applicable to such position at the time such increments would be paid as if such employee were a new hire.

It is agreed, notwithstanding the above, no employee shall be permitted to cross bid more than twice.

Notwithstanding anything in this Agreement to the contrary, it is understood that no employee shall be entitled to bid for a position outside his or her department until the completion of his or her probationary period.

At the vacation picking immediately following an employee's transfer from one department to another department, the employee shall use his or her new departmental seniority as provided above for the purpose of vacation picking at that time and thereafter.

A full-time employee transferring from one department to another department shall be entitled to order clothing in his or her department providing the employee meets the applicable requirements for such clothing crediting his or her work in his or her prior department. However, it is agreed that if such employee has already ordered clothing or received clothing allowance in his or her old department for the calendar year during which he or she transfers to a new department, such employee will receive the ordered clothing and will not be entitled to any clothing or clothing allowance in his or her new department until the next calendar year.

If, following the complete application of Section 10, except Section 10-13, any position remains vacant, including any position becoming vacant as a result of the bidding process, such vacancy shall then be offered to the most senior laid off full-time employee in the department in which the vacancy exists.

Such offer will be made first to the laid off employee having the greatest Company seniority. Provided that he or she meets the qualifications for the position, the employee must accept the position regardless of rate, location, hours of work or job duties. Acceptance of the position will result in restoration of full departmental seniority. Refusal of the position will result in loss of any and all rights to recall.

to the relief point. Operators who are relieved must report to the Station Clerk after traveling from the relief point. All reliefs will be paid traveling time as described in this section.

12-7 Regular Runs. All employees when operating regular runs on days other than Sundays and holidays shall receive not less than eight (8) hours' pay, which shall include platform time, travel time, report-time allowance and all other allowances, such as paid "breaks" of sixty (60) minutes or less in swing runs and the one (1) hour allowance for swing runs completed after 9:00 P.M. All employees when operating regular runs on Sundays and holidays shall receive not less than six (6) hours' pay, which shall include platform time, travel time, report-time allowance and all other allowances, such as paid "breaks" of sixty (60) minutes or less. An employee who is scheduled to work on Sunday and who, as a result of Sunday schedules operating on a holiday, works two Sunday runs in the week in which a holiday occurs and thereby earns less than forty (40) hours' pay for such week, shall be guaranteed forty (40) hours' pay for such week. In such case, premium time shall not be used in calculating the forty (40) hours' pay for such week. If Saturday schedules are operated on a holiday, employees regularly scheduled to work Saturday shall work the holiday in place of employees who are scheduled to work on the day the holiday falls. In addition to the Company's rights on other holidays, the Company shall have the right to operate Saturday schedules on Martin Luther King Day and Good Friday. If Saturday schedules are to be operated, the Company shall notify the Union at the time of the schedule picking for the period within which the holiday falls.

It is agreed Sunday bus runs on routes: 6, 11, 14, 15, 16, 17, 18, 20, 23 (Frontier Station), 24, 25, 32 and 35 will pull-out and pull-in instead of making street reliefs. The pay hours for such runs will be governed by a maximum of eight (8) hours and twenty-two (22) minutes of actual platform time, exclusive of pull-out and/or pull-in time, (in lieu of making street reliefs), report time and applicable overtime.

It is further agreed that the Sunday bus runs on routes: 1, 2, 5, 7, 27, 31, 36 and 37 will continue to pull-out and pull-in and will be governed by a maximum of 8.8 pay hours. For the schedule of runs each Winter that become effective at the end of December until the next new schedule of runs in March, Sunday runs on routes 22 and 23 (Cold Spring Station) shall be included in the sentence above.

Sunday bus runs on routes: 3, 4, 8, 9, 10, 12, 13, 19, 21, 22, 23 (Cold Spring Station), 25 (beyond Orchard Loop), 26 and 30 will continue to make street reliefs and will be governed by a maximum of 8.8 pay hours.

12-7(3) Saturday Runs. It is agreed that Saturday bus runs on the following routes will pull-out and pull-in instead of making street relief, effective with the March 1979 schedule revisions: 1, 2, 6, 11, 14, 15, 16, 20, 22, 23, 24 and 25.

12-7.1 To Be Scheduled for Not Less Than 5 Days Per Week. In scheduling the work-week, the Company shall be privileged to schedule regular runs for not less than five (5) days.

12-7.3 Breaks of One Hour or Less. Breaks (i.e., periods during which no work is scheduled to be performed) of one hour or less in regular scheduled runs shall be paid for at straight time, except that when the total of platform time, report time, travel time, and paid break in any scheduled run exceeds eight (8) hours, the time in excess of eight (8) hours shall be paid at time and one-half. Since the Company is paying the bus or train operator for such "break", the bus or train operator during such "break" shall perform such work as the Company may assign to him or her and which he or she is reasonably capable of performing. Any run with such "paid breaks" shall be considered a straight run.

12-7.4 Pull-In Trips - Bus Operators. For bus operators layover of one minute at the outer terminal shall be scheduled for pull-in trips. Checks of bus operators' adherence to schedules on pull-in trips shall be made at the outer terminal.

12-7.5 Recovery Time. All operators will receive no less than five (5) minutes recovery time at each terminal for trips of fifty (50) minutes or less. An additional two (2) minutes of recovery time will be added for trips of more than fifty (50) minutes.

12-8 Payment for Certain Trippers. A bus operator whose run relieves a tripper or whose run is relieved by a tripper may pick such tripper provided it is open to him or her for picking. He or she shall be paid for such tripper work performed ahead of his or her run the amount that such tripper normally pays, including allowances, at time and one-half. He or she shall be paid for such tripper work performed at the end of his or her run the pay for the additional work actually performed (excluding allowances) at time and one-half. A bus operator who has not picked such a tripper at the end of his or her run but who is requested by the Company to work such tripper shall be paid the amount that such tripper normally pays, including allowances, at time and one-half.

12-9 Limitations of Percentage of Swing Runs.

12-9(a) The runs shall be arranged so as to provide for a minimum of fifty percent (50%) of straight runs per weekday on a station basis and a minimum of sixty percent (60) of straight runs on Saturdays on a station basis. In the event that it becomes impossible to do so economically, the Union agrees to meet with the Company in an effort to establish a more equitable arrangement. However, swing runs in excess of eleven and one-half (11-1/2) consecutive hours shall not be included in the determination of such percentage.

12-9(b) All regularly scheduled runs on Sundays and on the holidays during which Sunday schedules are operated shall be straight runs.

12-9.1 Provisions Pertaining to Spread of Swing Runs.

12-9.1(a) The Company shall continue to schedule on a weekly basis at least twenty-five percent (25%) of the swing runs at each station to be completed within not to exceed ten and one half (10-1/2) consecutive hours, except that in order to continue the present practice of scheduling straight runs to be off on Saturday and Sunday to the extent possible, the Company may include one eleven and one-half (11-1/2) hour weekday swing run in such weekly runs. The balance of swing runs may be scheduled for not in excess of twelve (12) consecutive hours.

12-9.1(b) The said term "consecutive hours", in this subsection, is agreed to mean the elapsed time from the scheduled commencement of work on the bus or train until the scheduled completion of work on the bus or train, plus report allowance and travel time, if any.

12-9.1(c) Until February 1, 1994, swing runs in excess of ten (10) consecutive hours shall pay time and one-half for the time in excess of ten (10) consecutive hours, such premium pay to be in addition to any other contractual payments necessary to meet the daily or weekly minimum pay. Effective February 1, 1994, swing runs in excess of ten and one-quarter (10-1/4) consecutive hours shall pay time and one-half for the time in excess of ten and one-quarter (10-1/4) consecutive hours, such premium pay to be in addition to any other contractual payments necessary to meet the daily or weekly minimum pay.

12-10 Extra Bus and Train Operators' Guarantees, Reports and Allowances.

12-10.1 Daily Guarantee. Extra bus and train operators shall be guaranteed eight (8) hours' pay per day at their regular straight-time hourly rate for five (5) days per week, provided they shall have made all reports as directed.

12-10.1(a) Pay for work performed in excess of a run or eight (8) hours of other work in any of such days shall not be included in computing guarantee wages due such bus or train operators.

12-10.2 Regular Days Off. Extra bus and train operators shall be allowed two (2) consecutive days off per week. The Company shall prepare from time to time, as needed, a schedule, which shall enable extra operators to select or "pick" on a seniority basis their scheduled days off.

12-10.2(a) Holiday Work. In a manner similar to the procedure established for the regular bus and train operators, extra bus and train operators who are scheduled to work on Sundays shall work on holidays on which Sunday schedules are operated, in place of extra bus and train operators who are normally scheduled to work on those days and who shall have the day off. In a manner similar to the procedure established for regular bus and train operators, extra bus and train operators who are scheduled to work on Saturdays, shall work on holidays on which Saturday schedules are operated, in place of extra bus and train operators who are normally scheduled to work on those days and who shall have the day off.

12-10.3 Reduced Guarantees. Extra train or bus operators off work for more than two (2) days per week, or who fail to report for work as directed, or who fail to complete the work assigned on a report, shall forfeit their daily guarantee for each day they are off work or fail to report for work as directed.

12-10.4 Reports. An extra bus or train operator shall not be held longer than three (3) hours on his or her first report.

12-10.4(a) An extra bus or train operator required to make a second report in a day and who is not assigned work during such report, shall not be held longer than three (3) hours or shall be released after eleven and one-half (11-1/2) consecutive hours computed from the time of his or her first report, whichever first occurs.

12-10.4(b) An extra bus or train operator who is required to make a second report in a day and who is assigned and works a complete scheduled run on his or her second report shall receive holding time pay at the rate of one-half his or her straight-time hourly rate for the time he or she is held on his or her first and second reports. Holding time shall not be paid an extra operator under any other circumstances.

12-10.4(c) Extra operators to receive the minimum eight (8) hour guarantee shall report twice daily within a twelve (12) hour spread (i.e., twelve (12) hours from time of first report).

Any time worked by extra operators after a twelve (12) hour spread will be paid at the time and one-half rate and the half-time portion of such pay will not be applied toward the operator's daily guarantee.

If an operator makes such a request, the Company will use its best efforts to so relieve the operator as close to the twelve (12) hour point as possible, which efforts shall include requesting other operator overtime and, if necessary, an all-call. Until relieved, the extra operator must complete the assigned work.

12-10.4(d) Pay for work performed by an extra bus or train operator before or after the completion of his or her regularly scheduled reports or work assignments shall not be included in computing his or her daily guarantee.

12-10.5 Optional Report - Extra Operators. If an Operator takes an optional report, the new report time on the next day will be at least nine (9) hours from the finish time of the work assignment he or she is working, but no later than twelve (12) hours from the Operator's finish time.

12-10.6 Open Combination Bus Runs. Open bus runs consisting of a combination of contract school work and other operations shall become hold-down runs, to be assigned in accordance with established procedure for assigning open runs as hold-down runs.

12-10.7 Present Practices to Continue - Extra Operators. The present working conditions, practices, rules and regulations governing extra operators, shall continue in full force and effect, except as otherwise provided in this Agreement.

12-11 Missed Operators.

12-11.1 Missing a Run or First Report. Regular or extra bus or train operators who fail to report for their run or first report shall be marked "missed" until they actually report at the station, and shall be governed by the following procedures:

12-11.1(a) Missing Sixty (60) Minutes or Less. An Operator with not more than five (5) misses in the current period of twelve (12) consecutive months may remove for purposes of discipline a maximum of four first-half misses by making himself or herself available for work.

In order to have a miss removed the following requirements must be met:

1. The Operator must report in person and ready to work within sixty (60) minutes of the miss.
2. The Operator must be present in the station for a show-up period of six (6) hours, which may be continuous or split at the discretion of Metro, during which time he or she may be assigned work.
3. If work is assigned, the Operator must accept and complete such work.
4. If work is assigned but completed before the total time plus actually served show-up time equals six (6) hours, the Operator must serve sufficient additional show-up time to equal a total of six (6) hours (combined work time and show up time) or until the station closes, whichever comes first, and must accept and complete any additional work assigned during such additional show-up time.

Removed misses will not be counted for disciplinary purposes but will remain on the Operator's record.

12-11.1(b) Missing More Than Sixty (60) Minutes. A regular bus or train operator missing his or her run by more than sixty (60) minutes for the first time in any calendar month shall be permitted to work his or her regular run on his or her next regularly scheduled work-day following the miss, provided he or she reports in the usual manner.

An extra bus or train operator who does not report in person to the station on the day of his or her first miss in any calendar month shall phone his or her Operations Manager, Transportation Supervisor or Station Clerk to learn the time at which he or she is to report on his or her next regularly scheduled work-day.

12-11.1(c) Missing for Two Consecutive Scheduled Work-Days. A regular or extra bus or train operator missing his or her run or first report for two (2) consecutive scheduled work-days, must report in person at the station to the Transportation Supervisor or his or her representative for disciplinary action, if any, before forty eight (48) hours have elapsed since the time of the miss on the first day, excluding regularly scheduled days off. When the Transportation Supervisor or his or her representative is not present at the station before the bus or train operator's scheduled report time, the bus or train operator shall be permitted to work on that day, but must report later that day to the Transportation Supervisor or his or her representative. A bus or train operator failing to so report shall be automatically suspended.

12-11.1(d) Second or Subsequent Miss in Any Calendar Month. A regular or extra bus or train operator missing his or her run for first report for the second or subsequent time in any calendar month will be governed for each such miss by Paragraphs 12-11.1(a), 12-11.1(b) and 12-11.1(c) of this Subsection. In addition, for seven (7) days after each such miss, including the date of the miss, such bus or train operator will not be eligible to sign the "Extra Work List", nor be permitted to perform any work on his or her regularly scheduled days off, nor will he or she be assigned chartered work from the "Rotating Chartered Board" unless he or she has been specifically requested by the chartering party.

12-11.2 Absence Without Leave. A bus or train operator who fails to report for duty within forty-eight (48) consecutive hours, computed from the time he or she missed his or her first scheduled report but not including regularly scheduled days off, without reasonable explanation of his or her failure to so report, shall be considered as having voluntarily quit the employ of the Company.

12-11.3 Missing a Second Half of a Run or a Second Report. A regular or extra bus or train operator failing to report to the Station Clerk for the second half of a swing run or a second report shall be marked missed and shall not be required to report to the station, but must notify the station not later than thirty minutes after such miss. If he or she so notifies the station, he or she shall be permitted to work on his or her next regularly scheduled work day following the miss, provided he or she reports on time in the usual manner. An operator who fails to notify the station shall be disciplined at the discretion of the Transportation Supervisor or the Operations Manager. An extra bus or train operator shall phone his or her Transportation Supervisor or Station Clerk in the usual manner on the day before his or her return to work to learn the time at which he or she is to report.

12-18 **Operators Assigned to Other Duties.** Any bus or train operator may be assigned at any time by the Company to such work as they are reasonably capable of performing, and when so assigned shall be governed during the period thereof by rules, regulations and working conditions applicable to the department and subdivision to which they are assigned, but they shall be paid while working in the position to which they have been assigned the regular hourly rates applicable to the position to which they are assigned or to their positions as operators, whichever is greater. For situations that arise, i.e. TAP where employees are assigned to other duties, i.e. facilitating, the company will seek to select employees equally amongst locations and/or departments.

12-19 **Work of Extra Bus and Train Operators.** Regular bus and train operators shall not be required to do the work of extra bus or train operators, if there are extra bus or train operators reasonably available at the station involved. The Company shall endeavor to maintain an adequate extra list at each station.

12-19(a) **Work of Extra Bus and Train Operators at a Different Location.** When there are no available extra Operators at any particular station where open work is available, an extra board Operator from one station may be asked to fill open work at another station, providing all extra work lists have been exhausted at that station and that an all-call has been made at that station. However, it is understood that such extra operator may refuse. The assignment to a different location will be done in inverse order of departmental seniority of the available extra Operator then on report who has not been previously assigned to a different location during that day. When an Operator is assigned to a different location, the Company will be required to provide transportation from the Operator's base to the different location and vice-versa, and all time involved will be considered work time and paid at the Operator's regular rate of pay. In the event the Operator assigned to a different location has their own transportation, a minimum of twenty (20) minutes (each way) will be paid the Operator.

12-20 **Days Off in Regular Runs.** The Company, in scheduling regular runs, will designate the scheduled days off of each regular run. At least eighty percent (80%) of the runs operated from each station shall provide for consecutive days off.

12-21 **Work on Scheduled Days Off.** Regular and extra operators shall be paid at the rate of time and one-half at their regular straight time rate for all work, except charter work, performed on their regularly scheduled days off at the request of the Company or at their own request provided they shall have completed their regularly scheduled work week. An operator

who is unable to complete his or her regularly scheduled work week for any of the following reasons, shall be paid such overtime rate for such work performed:

1. Excused absence for official Union business;
2. Excused absence for active jury duty;
3. Excused absence for any reason which in the judgment of the Company is a valid reason for absence and for which the employee has furnished proof to the satisfaction of the Company if asked for such proof by the Company;
4. Reporting late within thirty (30) minutes after his or her scheduled reporting time, provided that after reporting he or she remains on duty as directed and works a complete scheduled run or eight (8) hours of miscellaneous work;
5. If an Operator works his/her regular day off before an incident resulting in a suspension, and if all three events (work on regular day off, incident and actual suspension) all occur in the pay period, then the Operator will still get time and a half for working his/her regular day off.
6. Excused absence for the use of a paid Personal Day under Sections 8-8.2 through 8-8.2(b) or for paid Sick Leave Day under Sections 8-8.1 through 8-8.1(e), except for a paid sick leave day taken the work day before or the work day after the employee's scheduled day off.

An operator who fails to complete his or her regularly scheduled work week for reasons other than provided above, shall be paid at straight time for work performed on any of his or her regularly scheduled days off until he or she has worked forty (40) hours at straight time pay, excluding overtime worked during the work week. An operator who has completed four of his or her regularly scheduled work days and, on his or her first regularly scheduled day off, completes another regularly scheduled work day, or eight (8) hours of work, will be paid time and one-half for any work performed on his or her second regularly scheduled day off. Holidays shall be considered scheduled days off for regular operators who are not scheduled to work on such days.

Charter work shall be paid at straight time for the first eight (8) hours of such work performed.

12-21(a) Regular bus and train operators who on a regularly scheduled day off, have worked a complete scheduled run or a number of hours equal to a normal scheduled work-day, if assigned to a second scheduled run on the same day, shall at the discretion of the Company be

relieved therefrom when an extra bus or train operator who has not completed a normal scheduled work day becomes available for assignment to such work.

12-21(b) The basis for computing the said payment of time and one-half to regular or extra bus or train operators working on a scheduled day off shall be on the total of platform time, report-time allowance, and travel time if any.

12-22 **Other Days Off.** Operators desiring for personal reasons a day off, in addition to their scheduled days off, shall so signify their desire by having their names and the day desired entered in a book which shall be maintained by the Company at each station for such purpose. They shall cause their request to be entered in such book not more than five (5) days before, and not later than 12:30 P.M. of the day preceding the day they desire to be off. Such records shall be made in said book in ink or indelible pencil by the Station Clerk. Such book shall be divided into alternate weekly periods; for one week the book shall be opened at 12:01 P.M., and for the other week at 4:01 A.M. The operator whose name appears first on such list for the day specified shall first be privileged to such day off, and other operators shall be privileged to such day off in sequence according to the list in such book. The Company will allow such days off as so selected provided that there are enough other operators available on such days to conduct its operations without curtailment or inconvenience, and the decision of the Company shall be exercised reasonably and fairly. The operators, recognizing that such additional days off are a privilege, agree not to abuse this privilege.

12-23 **Reporting Sick.** A bus or train operator who is unable to report for duty because of illness or injury shall make a proper report to that effect to his or her Transportation Supervisor, in the case of train operators the Transportation Supervisor or Station Clerk not later than one-half (1/2) hour, before his or her report time. Telephone reports will be accepted if made personally by the operator who is reporting sick, except in extenuating circumstances. If an operator so reports, he or she will be excused and marked "sick", and the following procedure will apply:

12-23(a) A bus or train operator reporting sick before 12:30 P.M., who is scheduled to work on the next calendar day following the day on which he or she reports sick and who expects to be able to return to work on said next calendar day, must not later than 12:30 P.M., on the day on which he or she reports sick, notify his or her Operations Manager, Transportation Supervisor or Station Clerk, of his or her intention to return to work the next day.

12-23(b) A bus or train operator reporting sick after 12:30 P.M., who is scheduled to work on the next calendar day following the day on which he or she reports sick and who expects to be able to return to work on said next calendar day, must at the time he or she makes his or her sick report, notify his or her Operations Manager, Transportation Supervisor or Station Clerk, of his or her intention to return to work the next day.

12-23(c) A bus or train operator who because of sickness or a scheduled day off does not work on the next calendar day following the day on which he or she reports sick, must before

12:30 P.M. on the day previous to the day on which he or she expects to return to work, notify his or her Operations Manager, Transportation Supervisor or Station Clerk, of his or her intention to return to work on such day.

12-23(d) An operator who reports sick and loses more than five (5) scheduled work days from work must comply with the provisions of this Agreement relating to leaves of absence for sickness.

12-24 **Rest.** Except in the circumstances stated in paragraph 12-24(b) herein, a regular or extra operator shall be relieved from driving a bus or operating a train as near as practicable to a total of fifteen (15) hours of driving time, but not to exceed fifteen and one-half (15-1/2) hours of driving or operating time in the twenty-four (24) consecutive hours immediately following the time that he or she first commenced to drive a bus or operate a train in any calendar day. The Company shall have the right to refuse a train operator's request to work more than twelve (12) hours of platform time in the twenty-four (24) consecutive hours immediately following the time that he or she first commenced to operate a train in any calendar day.

12-24(a) A bus or train operator so relieved within the twenty-four (24) hour period defined in paragraph 12-24 shall be released from all work and shall be off duty for at least eight (8) consecutive hours following his or her release before he or she may again be assigned to work.

12-24(b) These provisions shall not apply in the case of delays due to accident or emergency caused by the elements or a cause not known to the Company at the time the bus or train operator commenced work prior to any such delay, nor the Interstate Commerce Commission (ICC) work assignments. ICC rules applicable thereto shall continue in effect.

12-25 **Procedure for Picking of Runs.** Schedules of runs, as the same are revised, changed, altered, redesigned or to be re-picked from time to time, shall be posted at the station affected at least twenty-seven (27) days (except in emergencies) before such schedules shall become effective, and in connection therewith there shall be a notice stating the time when picking thereof shall begin, the date when such schedules shall become effective which shall be the third Sunday following the completion of the picking, and the bus and train operators who shall report each day for the purpose of picking or selecting their runs. Operators shall report for picking of runs at their own station in departmental seniority order at the time stated. The number so reporting in any one day at each of the bus stations in the Buffalo Bus Division shall not exceed thirty-five percent (35%) of the total number of runs to be picked. There shall be a minimum of four (4) general pickings of runs at each station or operating division during each calendar year. Except in the case of emergency, the effective dates of such pickings shall be no later than the fourth Sunday in March, the second Sunday in July, the third Sunday in September and the last Sunday in December. Preparatory to the revision of schedules, preliminary meetings for discussion thereof shall be held with Union representatives, which shall be participated in by not in excess of two such representatives from the station affected. Not in excess of two Union representatives shall conduct any picking at each of the stations in the Buffalo Division, and such picking shall be completed within five (5) consecutive days, except that in the case of train

operators such picking shall be completed within two (2) consecutive days. For train operators not in excess of one Union representative will participate in the preliminary and regular schedule meeting and shall conduct the schedule picking.

12-25.1 Bus and Train Operators Shall Pick When Notified. The bus and train operators entitled to pick runs shall promptly do so at the time stated in the aforesaid notice, either personally or through their Union representatives, and shall continue expeditiously and diligently to so pick, all in accordance with their seniority rights.

An Operator shall be placed on inactive status after he or she has been on indefinite sick leave for a period of six (6) months, and shall not be entitled to pick a run until the first scheduled pick after his or her return to active status.

Upon returning to work on active status as an Operator, he or she shall be placed on the extra board in accordance with his or her seniority, until the time of the next scheduled pick.

12-25.2 Regular Operators May Pick Extra Board. Regular bus and train operators shall be permitted if they desire to pick the extra board rather than a regular run. It is agreed that regular bus and train operators exercising this privilege shall be subject to all rules, regulations, working conditions and rates of pay applicable to extra bus or train operators.

12-25.3 Failure to Pick. If any bus or train operator entitled to so pick shall fail to do so, either personally or through his or her Union representatives, at the time stated in the aforesaid notice, then the Operations Manager or Transportation Supervisor shall assign him or her to a run or to the extra board. Such assignment by the Operations Manager or Transportation Supervisor shall be, to the extent possible, as nearly the same as the assignment then currently held by the bus or train operator failing to pick.

12-25.4 Operation of Revised Schedules. Bus and train operators, upon the effective date of such schedules, shall operate thereunder and shall operate the runs in accordance with such schedules, whether picked by themselves, their Union representatives or assigned in their behalf by their Operations Manager or Transportation Supervisor.

12-25.5 Line Move-Ups. Whenever a vacancy occurs by reason of termination of employment, bus or train operators of the line affected will be given the opportunity of picking the run thus vacated, beginning with the bus or train operator who immediately follows in point of seniority the bus or train operator creating the vacancy, regardless of the run held at the time. Such picking of runs shall be conducted within a period of one week following the day the run is vacated and will become effective the Sunday following the day on which the picking is completed.

12-25.5(a) Tripper Move-Ups. In a manner similar to line move-ups, tripper move-ups will be made on trippers when they are given up or taken away, with the understanding that such move-up will begin with the eligible operator at that Station with the next lowest seniority to the

operator vacating the tripper, and only those operators who have a tripper or who requested a tripper in writing at the time of the last regular scheduled picking shall be eligible to participate in the tripper move-up. The move-up will be effective beginning the day after the tripper is given up or taken away, except in unusual circumstances.

12-25.6 **Changes After Runs are Picked.** The Company shall have the right to make changes in runs or work which do not affect the operator's starting or finishing time, provided the Union is notified of the change. Changes which affect the starting or finishing times of runs may be made after runs are picked provided the Company discusses the change with the operator accompanied by a Union representative and all agree, except agreement shall not be necessary if the change is the result of a clerical error by the Schedule Department which does not affect the starting or finishing time by more than one (1) hour.

12-26 **Line Spacing - Bus Operators.** In lieu of additional running time in the schedules of runs for bus operators from the first Sunday in December to the first Sunday in March, the Company shall space bus lines when, in the opinion of the Company and the designated Union representative, street conditions warrant additional running time. In periods of abnormal weather conditions, the Company shall take necessary steps to assure that no bus operator shall be stubbed or cut on successive trips.

12-26(a) **Line Spacing - Train Operators.** The Company shall have the right to space train operators when in the opinion of the Company conditions warrant.

12-27 **Adjustment of Disputes.** In the event that any dispute shall arise between the parties hereto in reference to any action of the Company or by any employee under any of the foregoing provisions of this Section, it shall be adjusted under the grievance procedure hereinbefore provided. No complaint, controversy or grievance in any respect relating to schedules of runs, shall prevent, interfere with or hinder the picking or assignments under such schedules, or the operation of the runs thereunder. In the event of any such complaint, controversy or grievance, the schedules and the runs thereunder shall nevertheless be operated and performed in accordance therewith, and such complaint, controversy or grievance shall be determined in accordance with the said grievance procedure.

12-27(a) If any dispute shall arise as to the application of the foregoing provisions in respect to the physical or mental condition of any employee at any time, then it shall be considered and adjusted under the grievance procedure hereinbefore provided, and if it cannot be so adjusted it shall then be submitted to an impartial physician to be selected by the physician for the Company and the physician designated by the Union, under the procedure, terms and conditions set forth herein in paragraphs 8-7.1 and 8-7.2. The decision of such impartial physician shall be conclusive and binding and the expenses of such impartial physician shall be borne equally by the Company and the Union.

12-28 **Call-In Minimum.** Bus and train operators who are called into work shall be guaranteed a minimum of two (2) straight time hours' pay.

12-29 Required Physical Examinations - 19-A. Bus and train operators shall be paid for time spent in physical examinations required by Section 19-A of the New York State Vehicle and Traffic Law or by Section 12-2 of this Agreement at straight time rates with a minimum of one (1) hour pay provided the examination is conducted by the Company physician.

12-30 Relief Counter-Wrapper Clerks. The run of a bus operator working as a relief counter-wrapper clerk for an entire work week shall be placed in a hold-down and filled in accordance with past practice for the week. If a holiday falls within such work week the operator shall have the holiday off in the same manner as counter-wrapper clerks. Operators working as relief counter-wrapper clerks shall be paid in accordance with what the operator would have received for his or her run picked, but such operator's regular days off for the week during which he or she is working as a relief counter-wrapper clerk shall be Saturday and Sunday.

12-31 Revenue Collection. The Company shall establish a procedure for Revenue Collection from the rail stations. However, if Revenue Collection from rail stations is to be performed by Company employees, the Company shall establish a procedure for Revenue Collection from the rail stations, and advise the Union in advance of the procedures to be used, which among other things may include using ticket inspectors, train operators or establishing a different job classification in this or a different department. In any event, the Company shall be free to select the individuals for the work, which might only be a piece of an employee's daily work.

12-32 Exchange of Work Days in the Same Workweek - Operators, Regular Station Clerks, Ticket Inspectors, Traffic Checkers. Under the following conditions, a Bus or Train Operator, Regular Station Clerk, Fare Inspector or Traffic Checker may exchange his/her workday with the workday of another Bus or Train Operator, Regular Station Clerk, Station/Rail Ambassador or Traffic Checker at the same station in the same workweek, Sunday through Saturday:

A. The Transportation Supervisor or Operations Manager, or in the case of Station/Rail Ambassadors or Traffic Checkers, the employee's direct supervisor must be advised in writing on the appropriate Company form of the precise change of work days no later than 12:30 PM of the day prior to the workday in which the exchange is to take place.

B. Each Operator, Regular Station Clerk, Station/Rail Ambassadors or Traffic Checker, who is exchanging workdays, must work all assignments that go along with the workday of the person with whom he/she is exchanging. If either or both Operators, Regular Station Clerks, Station/Rail Ambassadors or Traffic Checkers, who are exchanging workdays, have a picked tripper as part of their workday in question, the operator exchanging into that workday must work the picked tripper.

C. There may be no exchange of Sunday work, which pays less than eight (8) hours.

D. Operators on the extra board may only exchange workdays with other operators who have picked the extra board. Regular operators may exchange with Extra Board Operators who have a hold down.

12-33 Employee's Birthday and Taking One Week of Vacation One Day at a Time - Operators, Regular Station Clerks, Fare Inspectors or Traffic Checkers. The Union and the Company agree to the following provisions, applicable to bus and train Operators, Regular Station Clerks, Station/Rail Ambassadors and Traffic Checkers:

A. With respect to the employee's birthday as described in Section 18-5, it is agreed that Bus and Train Operators, Regular Station Clerks, Station/Rail Ambassadors or Traffic Checkers may have the option of converting his/her birthday under Section 18-5 to either a floating holiday or adding such day to the employee's accumulated sick days as follows:

(i) An employee wishing to make such election to have his/her birthday treated as a floating holiday or as an accumulated sick day must notify the Company in writing in the calendar year prior to his/her birthday at the time he/she picks vacation for the next year. An employee not making such election at such time shall have his or her birthday treated as provided in Section 18-5.

(ii) If the bus or train Operator, Regular Station Clerk, Station/Rail Ambassador or Traffic Checker timely elects to have his/her birthday to be treated as a floating holiday, he/she must submit his/her request to use such floating holiday at least two weeks in advance of the date he/she wishes to use the floating holiday. The Company will notify the employee at least 72 hours before the day the employee requests to be off as to whether he/she may take that day as a floating holiday. If the Company is going to permit the use of a floating holiday on any given day and more employees request a floating holiday than the Company will permit off at the particular station, the employees who first request to use the particular day as a floating holiday shall be given preference.

(iii) Any floating holiday not taken in the calendar year in which the employee's birthday falls, shall be paid as per the provisions of Section 18-5 at the end of the calendar year.

(iv) If an Operator, Regular Station Clerk, Station/Rail Ambassador or Traffic Checker elects to convert his/her birthday to an accumulated sick day, such election will be effective on the January 1st of the year in which the employee's birthday falls.

B. With respect to Good Friday and the employee's anniversary date of hire, as provided for in Section 18-5, it is agreed that bus and train operators may have the option of converting either or both Good Friday and/or the employee's anniversary date of hire to an accumulated sick day, provided the operator made such election in writing in the prior

calendar year at the same time as he/she picks vacation. An employee not making such election at such time shall have Good Friday and/or his/her anniversary date of employment treated as provided in Section 18-5. If an operator elects to convert Good Friday to an accumulated sick day, such election will be effective on the December 31st of the year in which such Good Friday falls, it being agreed that such election may be revoked on or before April 1st, if the Company decides to operate Saturday schedules on Good Friday. If an operator elects to convert his/her anniversary date of hire to an accumulated sick day, such election will be effective January 1st of the year in which such anniversary date of hire falls. An operator electing to convert Good Friday to an accumulated sick day who is then not scheduled to work on Good Friday shall have Good Friday off without pay.

C. A bus or train Operator, Regular Station Clerk, or Station/Rail Ambassador may elect to take one of the vacation weeks, to which he/she is entitled, one day at a time, provided:

(i) The employee makes his/her election to take one week of vacation one day at a time, at least four (4) weeks prior to the vacation picking for the calendar year in which the employee is entitled to take such vacation.

(ii) The employee has at least five (5) years of service with the Company by the date the employee is required to make his/her election.

An employee so electing to take one week of his/her vacation one day at a time may not take more than two days of such vacation in any one week. The employee must give the Company at least fourteen (14) calendar days' notice prior to the day he/she wishes to take a single vacation day. The Company will notify the employee as to whether he/she may take the requested day at least 72 hours prior to the day in question. If there are a greater number of employees requesting a particular day as a single day of vacation than the quota permits for that day at that station, the employee who first requested that particular day as a vacation day shall be given preference.

In the year prior to the vacation year in question, once the election for single day vacations have been made, the Company will adjust its quotas for regular vacation weeks accordingly and will then establish quotas for single day vacations at each station.

Single vacation days must be taken within the calendar year in which the employee is eligible to take vacation. If, by December 1, the employee has not designated the use of all of his/her single vacation days, such employee will be paid in the second pay period of December for any unused single vacation days.

D. It is agreed that the Company or the Union shall have the right any time after the first calendar year in which the provisions of subparagraphs A and C above applied to cancel all of the provisions of either subparagraphs A or subparagraph C or both by giving the other party written notice of such cancellation and the provisions so cancelled shall be deemed

automatically deleted from the contract and shall be null and void and of no further effect, provided the Company or the Union has given two (2) weeks' notice prior to the notice of cancellation to the other party of the consideration of such cancellation. Upon such notice, the Company and the Union will meet to discuss any and all problems associated with this Section and to make every attempt to resolve such problems. The notice of cancellation must be given prior to the date for the employee elections contemplated by subparagraphs A and C above in order for such cancellation to be effective for the next calendar year. If the Company or the Union cancels the provisions of both A and C above, then the provisions of Section 12-13.1, as in effect in the Collective Bargaining Agreement that expired July 31, 1990, shall be substituted for the provisions of Section 12-13.1 of the current Collective Bargaining Agreement effective the January 1st following the last year for which employees could make the elections contemplated by subparagraphs A and C above.

12-34 220 Work Day Requirement. For purposes of meeting the two hundred twenty (220) work day requirement for benefits or uniform allowances, full-time operators who accept extra work assignments in a work day, paying at least two (2) hours, will be credited with a day's work for such work up to a maximum of two (2) days per week.

12-35 The Company will provide lockers at all locations for full time operators for the storage of work related equipment when not in use.

SECTION 12-A – PROVISIONS RELATING EXCLUSIVELY TO METROLINK

Metro Link Agreement

The operation of MetroLink services is a vital component of Metro's provision of transit services. The MetroLink service will not jeopardize the job security of Metro fixed-route-full-time employees or the present and future integrity of the bargaining unit. To those ends, the parties agree as follows:

It is agreed that Metro can operate MetroLink service;

If at any point it is determined that the number of fixed route revenue vehicle hours expected to be operated by Metro will be less than the Minimum Service Level (as defined herein), Metro will convert MetroLink service (excluding ParaTransit) to regular Metro Fixed route service in the amount necessary to reach the Minimum Service Level. This conversion may include the operation of a small transit vehicle by a fixed route Metro operator. If all MetroLink service (excluding ParaTransit) has been converted and the Minimum Service Level has still not been achieved, no new MetroLink service (excluding ParaTransit) may be operated until such time as sufficient new Metro fixed route service has been created to achieve the Minimum Service Level.

The Minimum Service Level shall be defined as the number of fixed route revenue vehicle hours not less than 687,569 which is 95% of the corrected Metro (Big Bus) fixed route revenue hours reported to New York State in the 17-A Report for the fiscal year ending 2000.

The figure of 687,569 hours does not include rail service. It is agreed that if there is a shutdown of rail service, Metro bus will exclusively replace rail service. All Metro bus revenue vehicle hours necessary to replace rail service will be added to the Minimum Service Level.

The number of MetroLink operators will not exceed twenty percent (20%) of the number of full-time fixed route Metro operators (subject to Par.5).

No existing fixed route service may be converted to MetroLink. Metro will have full discretion in the design and operation of MetroLink Services.

MetroLink operators will not be permitted to operate fixed route service. If Metro deems it necessary, fixed route operators may be asked to work MetroLink service. If this situation arises, fixed route operators who are asked by the Company to work MetroLink service and who accept such offer, shall be paid at their regular fixed route rate while operating MetroLink service.

METROLINK will consist of:

1. All new open to the public transit service that;
 - a. Is funded whole, in part, or bid on by NFTA/Metro, including Amherst Shuttle Project (a.k.a. NY West Express)
 - b. Utilizes small transit vehicles (STV's) with a seating capacity of no more than 24. The seating capacity is arrived at through the following process: the manufacturer's maximum seating capacity of X amount, less the seats lost to achieve ADA compliance (wheelchair lift or ramp devices and at least two (2) accommodations for wheelchair positions), less the seating that must be removed or relocated to accommodate such standard Metro equipment as fare box and radio equipment boxes.

As an example, a vehicle has a manufacturer's maximum seating capacity of 29 seats. However, since that seating capacity is for a vehicle without wheelchair accommodations, it is ordered with a wheelchair lift or ramp and at least two (2) wheelchair tie down positions. The vehicle is also modified to accommodate the installation of Metro's fare box and radio/electronic equipment boxes. This results in a vehicle with 24 seats that is Metrolink compliant, as illustrated below.

Manufacturer's maximum seating capacity = 29

Installation of wheelchair lift by manufacturer causes the loss of 2 seats = -2

Installation of flip up seats to allow for wheelchair positions locations = -2

Installation of fare box and radio boxes causes loss of 1 seat = -1

Seating capacity is then:

1. 29 Maximum seating capacity
 2. -2 Remove 2 seats for wheelchair lift
 3. -2 Reconfigure for flip up seats
 4. -1 Remove seat for fare box
- 24 Seating capacity defined as fixed seats and flip-ups

c. All trolleys in use as of the signing of this Agreement shall be considered Metrolink vehicles.

2. All ParaTransit access line work including night and weekend service (service restricted to eligible individuals as defined by the Americans with Disabilities Act).

a. MetroLink operators will be considered full time subject to terms and conditions of this agreement and all sections of the Metro agreement unless otherwise stipulated.

b. All portions of Section 12 (except Sec. 12-3.1) apply to MetroLink operators.

c. All maintenance and repairs on all MetroLink vehicles leased or owned by NFTA and NFT Metro Systems Inc. will be exclusively performed by members of Metro ATU Local 1342, with the understanding that regular warranty work (standard manufacturers or 3 years/36,000 miles, whichever is less), may be performed by members of ATU Local 1342 or, at the Company discretion, a service provider designated by the vehicle supplier. No extended warranties will be purchased for any MetroLink vehicle.

d. All MetroLink clerical, including station clerical will be exclusively performed by members of Metro ATU Local 1342, clerical department.

e. MetroLink operators will be subject to the following wage progression:

METROLINK OPERATORS – INITIAL EMPLOYMENT

1. Once a MetroLink operator successfully bids on a fixed route bus operator position, all months of service worked as a MetroLink operator will count toward wage progression as defined in Section 12-3.1. The straight time hourly rates of pay for MetroLink operators for the term of the Agreement, August 1, 2009 to July 31, 2020 are:

<u>4/1/17</u>	<u>4/1/18</u>	<u>4/1/19</u>	<u>4/1/20</u>
17.37	17.72	18.07	18.48

A new wage table more particularly setting forth wage rates to the 4th decimal point for all steps for MetroLink operators for the period through July 31, 2020 is attached to this

CBA as Appendix "A". Regular and extra operators remain subject to all requirements for qualification and any applicable rate of pay during all periods of qualification.

2. The number of MetroLink operators will at no time exceed twenty percent (20%) of full-time Metro operators. Metro is hereafter defined to be Metro full time operators working full-time fixed route service as currently defined in Section 12 of the 1996 Collective Bargaining Agreement (CBA).
3. When the number of MetroLink operators exceeds twenty percent (20%) of the number of Metro operators the following will apply:
 - a. The MetroLink operators in excess of twenty percent (20%) will be promoted to Metro full time status.
 - b. The MetroLink work created by said excess will be operated by Metro operators and picked at the next Metro sign-up.
4. MetroLink drivers will be given preference in bidding on all open Metro Fixed route operator positions.
5. In the event of layoff, full-time Metro employees represented by ATU will be allowed to bump into MetroLink or ParaTransit positions, without loss of pay and/or benefits, provided they are unable to bump to other Metro jobs. Such employees must return to their former Metro position if recalled. All negotiated Metro benefits under the parties then current CBA, including pay increases, will apply to these displaced employees. The layoff of MetroLink operators will not result in the application of Section 12B – 4.3 of the current Collective Bargaining Agreement.

Laid off MetroLink operators have the right to bump to part-time status and will go to the top of the part-time seniority list. MetroLink operators retain the right for recall to MetroLink positions while in part-time status and may bid on other Metro positions under the provisions of 10-13 of the Collective Bargaining Agreement.

6. Pension Contributions - For each MetroLink operator, the Metro pension contribution will be based on the maximum full time operator rate.
7. The time allocated for picking will be the same as for part-time work: 30 operators per day.
8. Employees from MetroLink who bid into Metro fixed route will not serve a probationary period. Attendance record will carry forward.

SECTION 12-B - PROVISIONS RELATING EXCLUSIVELY TO PART-TIME BUS AND TRAIN OPERATORS

12-B-1 Employees Covered by Section. The provisions of this Section shall become effective August 1, 1993 and shall apply only to part-time bus operators and part-time train operators.

12-B-1.1 Definition. A part-time bus or train operator is defined as a person who is employed by Metro on a continuing basis whose assignments will consist of weekend and holiday work only, and who is guaranteed two (2) hours' straight-time pay whenever called into work, or pay for hours worked, whichever is greater.

12-B-1.2 Work Assignments. Part-time operators shall be used exclusively for the purpose of working weekend and holiday assignments, the work and location of which shall be at the discretion of the Company.

12-B-2 Straight-Time Hourly Rates of Pay for Part-Time Bus and Train Operators. After qualification as a Part-Time Bus and Train Operator, the maximum straight time hourly rates of pay of part-time bus and train operators shall be 70% of the maximum straight time hourly rate of full-time regular operators.

During the qualification period, part-time operators shall be paid seventy-percent (70%) of the top part-time rate.

Until ninety-six (96) months of service following the employee's qualification as a part-time bus or train operator, such part-time bus or train operators shall be paid the following percentages of the maximum hourly rate for part-time bus and train operators during the following periods of time after qualifications.

After Qualification:

0 to 24 months following qualification	75% of full rate
24 to 48 months following qualification	80% of full rate
48 to 72 months following qualification	85% of full rate
72 to 96 months following qualification	90% of full rate
96 months and over following qualification	100% of full rate

The aforesaid periods relate to service of part-time operators with the Company after they qualified for employment with the Company by satisfactorily completing their training periods.

12-B-3 **Daily Hours.** The Company may establish a daily limit on the hours worked by part-time operators.

12-B-4.1 **Limits on Employment of Part-Time Operators.** The use of part-time bus and train operators shall not cause the layoff of regular bus and train operators. Part-time operators will be hired as a result of normal attrition of full-time operators for reasons other than discipline.

12-B-4.2 During the time the Company employs part-time operators, all full-time bus or train operators who are discharged by the employer will be replaced by a full-time operator within a period of four months from the date of termination.

12-B-4.3 No full-time operators shall be laid off while part-time operators are employed. No part-time operator shall be placed in service until ALL full-time operators who were laid off have been offered recall.

12-B-5 **Full-Time Operators Performing Part-time Assignments.** Part-time operators may not work full-time operator assignments, except by agreement between the Union and the Company. If agreed to by the Union and the Company, full-time operators may work part-time assignments, but full-time operators will not be entitled to work such assignments.

12-B-6 **Sporting Events.** Full-time bus and train operators will be given priority for all "football work" and "hockey work" that becomes available on weekends or holidays.

12-B-7 **Procedure For Picking of Work.** Part-time operators will pick their assignments separate from full-time operators, but during the same time period based on seniority, not less than four (4) times per year. Seniority will be established based on the date of qualification.

12-B-8 **Pieces of Work Performed by Part-Time Operators.** The pieces of work performed by the part-time bus and train operators shall not count or be included in the computation of various percentage limitations or requirements called for by this Agreement, including, but not limited to, the provisions of this Section 12-9 and all of its subsections and paragraphs.

12-B-9 **Work Obligation.** Any part-time bus or train operator who was offered at least two hundred (200) hours of work and who did not actually work at least two hundred (200) hours in any given calendar year may be separated by the Company from the employ of the Company, but may be rehired by the Company.

12-B-10 **Information For The Union.** A list showing the number of hours worked and what assignments worked by part-time operators will be made available to the Union on a weekly basis. A seniority list for part-time operators will be made available to the Union on a monthly basis.

12-B-11 **Promotion to Full-Time Operator Position.** After completing the bidding required by Section 10 of this Agreement, any new, unfilled full-time bus and train operator positions will be offered to qualified part-time operators, provided there are a sufficient number of qualified applicants. Seniority shall determine the order of selection provided that the part-time operators are qualified and have completed six (6) months of service immediately preceding their transfer to full-time status.

12-B-11.1 A part-time operator who accepts employment as a full-time operator shall, for all purposes, accrue service seniority only from the date hired as a full-time operator and shall be paid as if hired on the date they were placed into full-time status.

12-B-11.2 It is understood that within sixty (60) days from a part-time operator's qualifying as a full-time operator, the employee may exercise an option to return to part-time status. In addition, the Company may exercise an option to return the employee to part-time status. In the event the employee exercises his or her option to return to part-time status, said employee will,

for the purpose of being afforded full-time status at a future date, revert to the bottom of the part-time seniority list.

12-B-11.3 Part-time Operators will have first preference, by seniority, to Helper and Porter positions not filled by full-time employees.

12-B-12 **Transportation.** Part-time operators shall be provided free transportation on the lines of the Company provided that the operator is in uniform.

12-B-13 **Uniforms.** Part-time operators shall be required to wear the prescribed uniform while working. Part-time operators will be issued a voucher equivalent of two (2) uniform shirts and one (1) pair of uniform pants at the time of qualification and annually thereafter.

12-B-14 **Other Provisions of This Collective Bargaining Agreement.** Except as specifically provided in this Section 12-B, none of the provisions of this Collective Bargaining Agreement or any other agreement between the Company or the Union shall apply to part-time operators or their work.

12-B-14.1 **Section 12.** To the extent provided below, the following are the only provisions of Section 12 which shall be applicable to the part-time bus and train operators or their work.

- Section 12-2 (Qualification and Requirements for Train Operators Under Vehicle and Traffic Law)

12-B-15.1 Daily Guarantee. Extra bus and train part-time operators shall be guaranteed eight (8) hours pay per day at their regular straight-time hourly rate provided they shall have made all reports as directed.

12-B-15.1(a) Pay for work performed in excess of a run or eight (8) hours of other work in any of such days shall not be included in computing guarantee wages due such part time bus or part time train operators.

12-B-15.2 Metro shall determine the number of part-time operator extra board assignments. Such assignments may be allocated to Saturday assignments, Sunday assignments and Saturday/Sunday assignments for picking purposes.

12-B-15.3 Holiday Work. In a manner similar to the procedure established for the regular bus and train operators, extra bus and train part-time operators who are scheduled to work on Sundays shall work on holidays on which Sunday schedules are operated. 12-B-15.4(b) Part time extra operators to receive the minimum eight (8) hour guarantee shall report twice daily within a twelve (12) hour spread (i.e. twelve (12) hours from time of first report).

Any time worked by part-time extra operators after a twelve (12) hour spread, will be paid at the time and one-half rate and the half-time portion of such pay will not be applied toward the operator's daily guarantee.

If an operator makes such a request, the Company will use its best efforts to so relieve the operator as close to the twelve (12) hour point as possible, which efforts shall include requesting other operator overtime and, if necessary, an all-call. Until relieved, the part-time extra operator must complete the assigned work.

12-B-15.4(c) Pay for work performed by an extra bus or train part-time operator before or after the completion of his or her regularly scheduled reports or work assignments shall not be included in computing his or her daily guarantee.

12-B-15.5 **Optional Report - Extra Part-Time Operators.** Extra part-time operators who finish their day's work after 9:00 pm shall have the privilege of an optional report, that is, if they so desire and so inform the Station Clerk in the prescribed manner, they will be excused from reporting for an assignment before they shall have been off duty at least nine (9) hours. If an Operator takes an optional report, the new report time on the next day will be at least nine (9) hours from the finish time of the work assignment he or she is working, but no later than twelve (12) hours from the part-time Operator's finish time.

This wage table amends or alters existing practices or agreements in the Maintenance Department regarding compensation for Mechanic A, Specialist and Leader positions during trial periods or probation but all such positions remain subject to qualification and all other applicable existing agreements.

The Company shall have the right to establish such other job classifications as necessary. The rate of pay shall be equal to the current classification most similar to the job content of such new jobs. When it is determined by Metro to fill vacancies in Mechanic A, Specialist and Leader positions, the procedure will be as follows:

1. Persons who were full-time Metro employees covered by this Agreement as of 12/16/96, will be governed by CBA job filling, new hire progression and trial period/testing requirements in effect as of that date and shall be paid at the promotion rate unless the employee is disqualified from the position or terminates his or her trial.

2. Paragraph 2 applies if the position is not filled under Paragraph 1. The vacant position will be awarded to the most senior current employee (or new hire selected by Metro, if no current employee applies) who passes the required advance comprehensive skills test for that position and shall be paid at the promotion rate unless the employee is disqualified from the position or terminates his or her trial.

A person who is awarded the position will be subject, if applicable, to a progression for new hire employees in accordance with the wage tables in Appendix "A" attached to this CBA. To retain the position, all employees remain subject to qualifications and testing procedures, as well as other applicable existing agreements but shall be paid at the promotion rate unless the employee is disqualified from the position or terminates his or her trial.

13-3.1 The scheduled work-week, work-day and overtime provisions shall be as follows:

An employee whose scheduled work assignment is a third shift will be paid a shift differential of seventy five cents (.75) per hour for all work performed during such third shift. An employee, whose scheduled work assignment includes a shift differential at the time of taking any vacation, holiday and personal leave, shall have such vacation, holiday and personal leave pay include the applicable shift differential.

13-3.1(e) **Scheduled Work-Week and Work-Day; Overtime Provisions.** An employee whose regularly scheduled (picked) work assignment is other than a second or third shift and

who is assigned to and completes a full work day of a second or third shift (including a full shift of snow overtime work) will be paid the applicable shift differential for such work day for the hours worked during such second or third shift. Such employee called in less than eight hours before the start of his or her regular shift to perform snow work during the second or third shift shall be paid the shift differential for all hours worked up to the start of his or her regularly scheduled shift, provided the employee performs work up to the start of his or her regularly scheduled shift and completes his or her regularly scheduled shift.

The term "second or third shift" in this subsection is agreed to mean the following scheduled workday assignments:

	<u>2nd Shift</u>	<u>3rd Shift</u>
Shop Employees	3:00 P.M. to 11:30 P.M.	11:00 P.M. to 7:30 A.M.

The Company shall have the right to establish different shift hours for the various employees working out of the Rail Shops, subject to the Union's approval, which will not be unreasonably withheld.

First shift (day shift) employees who perform work before or after the scheduled starting or completion time of their regularly picked shift will be paid at overtime rates for the time in excess of their normal hours of work, however, they will not be entitled to shift differential pay.

13-3.2 Scheduled Days Off. The Company will make all reasonable efforts to schedule consecutively the days off of employees during their five-day work-week, provided such scheduling of days off is consistent with the efficient operation of the Company's business.

13-4 Employees Called Back to Work after Completion of Regular Day's Work. Employees who have completed their scheduled day's assignment and have left their place of employment and are thereafter called back to work shall be paid at the rate of time and one-half, but the amount so paid shall not be less than the equivalent of five (5) hours' pay at straight time.

If an employee is called in to work prior to the start of his or her shift, he or she will be paid at the rate of time and one-half (1-1/2) for the hours prior to regular starting time, but the amount paid for that time period shall not be less than the equivalent of five (5) hours' pay at straight time.

Employees who have added to their schedule (prior to the end of their previous work day) a report prior to their regular starting time, shall be paid at a rate of time and one-half (1-1/2) for the hours prior to their regular starting time, but the amount for such time shall not be less than the equivalent of three (3) hours' pay at straight time.

Employees who are on property before their regular scheduled starting time and who are requested by the Company to begin work before that starting time, shall be paid at the rate of time and one-half (1-1/2) for the hours before that starting time, but the amount so paid shall not be less than the equivalent of three (3) hours' pay at straight time.

Selection of the employee to perform work on a scheduled basis prior to the start of their regular scheduled shift, shall be done by using the overtime list for the employees on the shift to which the overtime is attached. Any employee accepting overtime work as set forth in the conditions above, shall be dropped on the overtime list in accordance with the overtime procedure.

Employees who refuse a scheduled overtime assignment or employees who refuse overtime when they are on property prior to the start of their work shift, will not be dropped on the overtime list.

13-5.1 (d) Special Shop Overtime List. If the overtime list for the Shops (Unit Change, Machine Shop, Body Shop) is exhausted, then the Company may make use of an overtime list from any of the Bus Garages. The Bus Garage list to be used will be the Group 1 Overtime List. The Company will select which of these Group 1 lists, if any, are to be used.

13-5.1(e) Snow Work Overtime Lists. The "Snow Work" continuous rotating overtime lists will be maintained at each location from October 15th to April 15th. As of October 15th each year the "Snow Work" overtime lists as in effect as of the previous April 15th will be used. The "Snow Work" overtime list will be open to all employees above Helper who possess the appropriate driver's license. Employees will be selected for "Snow Work" overtime from the "Snow Work" overtime list in the following order:

1. First, the Company, starting at the top of the "Snow Work" overtime list, will contact those employees who are not then working but who are available for snow work. It is agreed that if an employee is next on a "Snow Work" overtime list and is also

within two (2) hours of completing his or her regular shift, then he or she shall be considered available for snow work and shall be asked.

2. After exhausting the procedure outlined in paragraph 1 above, the Company shall next ask the employee highest on the "Snow Work" overtime list who is currently working any part of his or her regular shift.

3. After exhausting the procedures outlined in paragraphs 1 and 2 above, the Company may then call any qualified employee who has the appropriate driver's license.

13-5.2 Sign-Up. New entrants to any overtime list will be placed at the bottom of the applicable overtime list as of the day of their written request to be added to the overtime list. An employee who has requested to be removed from the overtime list may only return to an overtime list as of the first day of the month following his or her written request and such employee shall be added to the bottom of the applicable overtime list. If on any day more than one employee is added to any overtime list, such employees will be added to the bottom of the overtime list at each location in departmental seniority order.

13-5.3 Rotation on List. An employee who works two and one half (2 ½) hours of overtime or more on any one (1) occasion shall have his or her name moved to the bottom of that overtime list. The same provisions for rotation to the bottom of that overtime list as provided above shall be applicable to all overtime lists.

13-5.4 Time and One-Half. Time and one-half shall not be paid twice for the same overtime hours except in the event that overtime work is assigned improperly. In such case the employee who should have performed the improperly assigned work will be paid time and one-half if he or she would have received time and one-half for performing the work.

13-5.5 Failure to Work Regular Shift. An employee who books sick for all or part of his or her regular shift shall not be entitled to any overtime until he or she next reports to work on his or her regularly assigned shift. It is agreed that with respect to an employee who leaves work before the end of his or her shift by booking sick shall not be entitled to any overtime for which he or she has already been assigned (his or her name has moved to the bottom of the overtime lists) which falls between the day of the incomplete shift and the day the employee next reports for his or her regularly scheduled shift.

13-5.6 Maximum Daily Overtime: No employee shall be permitted to work more than sixteen (16) hours in any twenty-four (24) hour period. In determining whether an employee is working or has worked more than 16 hours in a 24-hour period, lunch breaks, whether paid or unpaid, will not be counted. If this results in an employee not being permitted to work part of his or her regularly scheduled shift, the employee shall be excused, without pay, from such time on his or her regular shift to the extent necessary to comply with this section. Further, any employee

who is passed over on one or more of the overtime lists, by reason of this rule, will not drop on the list(s).

Any overtime work that becomes available as a result of the application of this section will only be filled by a member of the ATU bargaining unit by using all established lists including those for lower classifications. Exception: application of list for filling supervisory overtime at the bus garages, rail and shop locations.

13-6 Travel Time. Employees assigned to a definite location of the Company for work and temporarily assigned to another Company location, if required to travel from their regular place of work to a place of temporary assignment, shall be paid their regular hourly rates while actually so traveling over the most expeditious route.

13-6(a) However, no "travel time" shall be paid to employees whose regular work requires them to report at varying places from time to time.

13-7 Work on Scheduled Days Off. Employees shall be paid at the rate of time and one-half at their regular straight time rate for all work performed on their regularly scheduled days off at the request of the Company or at their own request provided they shall have completed their regularly scheduled work week. An employee who is unable to complete his or her regularly scheduled work week for any of the following reasons, shall be paid such overtime rate for such work performed:

1. Excused absence for official Union business;
2. Excused absence for active jury duty;
3. Excused absence for any reason which in the judgment of the Company is a valid reason for absence and for which the employee has furnished proof to the satisfaction of the Company if asked for such proof by the Company;
4. Reporting late within thirty (30) minutes after his or her scheduled reporting time, provided that after reporting he or she remains on duty as directed and works a complete scheduled run or eight (8) hours of miscellaneous work;
5. Disciplinary suspension, except for a disciplinary suspension for missing or absenteeism;
6. Excused absence for the use of a paid Personal Day under Sections 8-8.2 through 8-8.2(b) or for paid Sick Leave Day under Sections 8-8.1 through 8-8.1(e), except for a paid sick leave day taken the

work day before or the work day after the employee's scheduled day off.

An employee who fails to complete his or her regularly scheduled work week for reasons other than provided above, shall be paid at straight time for work performed on any of his or her regularly scheduled days off until he or she has worked forty (40) hours at straight time pay, excluding overtime worked during the work week. An employee who has completed four of his or her regularly scheduled work days and, on his or her first regularly scheduled day off, completes another regularly scheduled work day, or eight (8) hours of work, will be paid time and one half for any work performed on his or her second regularly scheduled day off. Holidays shall be considered scheduled days off for regular employees who are not scheduled to work on such days.

13-7(a) Time and one-half paid to such employees so working on any scheduled day off shall not be paid on any time on which time and one-half shall have been previously paid.

13-8 **Cancellation or Curtailment of Work.** In the event of temporary cancellation or curtailment of work, which cancellation or curtailment does not continue for more than three (3) days, resulting from emergencies due to a shortage of material or equipment, or to breakdowns, snow storms, floods, or other extra ordinary weather conditions, or by reason of a fire or other catastrophe resulting in the closing of their regular place of work, or a substantial part thereof, for not more than three (3) days, the employees (other than part-time employees and employees who do not now normally work during the period of inclement weather) shall be paid at their straight-time hourly rates for the hours when their work is so cancelled or curtailed; provided --

13-8(a) No payment in any such event shall be made for more than three (3) days and, during such three (3) days, payment shall be made only to employees who report on time for their scheduled work and remain on duty during the period thereof, unless excused, and during such period perform duties as they are reasonably capable of performing and which may be assigned to them by the Company. No payment shall be made in the event of any cancellation or curtailment of work continuing for more than three (3) days.

13-9 **Reporting Sick.** An employee who is unable to report for duty because of illness or injury shall make a proper report to that effect to his or her Supervisor not later than one-half (1/2) hour before he or she is scheduled to report for work. An employee so reporting will be excused and marked "sick".

13-9(a) If it is the intention of such employee to report for work the next scheduled work-day, he or she must so inform the Supervisor.

13-9(b) An employee reporting sick and losing more than five (5) scheduled work-days from work must also comply with the provisions of this Agreement relating to leaves of absence for sickness.

Maintenance Department employees so assigned snow work shall be limited to those whose names appear on the snow work list. The Company agrees to the objective of spreading such straight-time snow work as much as possible to those on that shift, with the understanding that there shall not be interference with the completion of required work. Personal Days, as provided for in Section 8-8.2 of this Agreement, may be requested by Maintenance Department employees to be taken in increments of a full hour up to four (4) hours in a day, subject to the rules governing the use of Personal Days specified in Section 8-8.2(b).

13-19 Employee's Birthday and Taking One Week of Vacation One Day at a Time. The Union and the Company agree to the following provisions, applicable to employees covered by this Section 13:

A. With respect to the employee's birthday as described in Section 18-5, it is agreed that maintenance employees may have the option of converting his/her birthday under Section 18-5 to either a floating holiday or adding such day to the employee's accumulated sick days as follows:

(i) An employee wishing to make such election to have his/her birthday treated as a floating holiday or as an accumulated sick day must notify the Company in writing in the calendar year prior to his/her birthday at the time he/she picks vacation for the next year. An employee not making such election at such time shall have his or her birthday treated as provided in Section 18-5.

(ii) If the maintenance employee timely elects to have his/her birthday to be treated as a floating holiday, he/she must submit his/her request to use such floating holiday at least two weeks in advance of the date he/she wishes to use the floating holiday. The Company will notify the employee at least 72 hours before the day the employee requests to be off as to whether he/she may take that day as a floating holiday. If the Company is going to permit the use of a floating holiday on any given day and more employees request a floating holiday than the Company will permit off at the particular station, the employees who first request to use the particular day as a floating holiday shall be given preference.

(iii) Any floating holiday not taken in the calendar year in which the employee's birthday falls, shall be paid as per the provisions of Section 18-5 at the end of the calendar year.

(iv) If a maintenance employee elects to convert his/her birthday to an accumulated sick day, such election will be effective on the January 1st of the year in which the employee's birthday falls.

B. With respect to Good Friday and the employee's anniversary date of hire, as provided for in Section 18-5, it is agreed that maintenance employees may have the option of converting either or both Good Friday and/or the employee's anniversary date of hire to an accumulated sick day, provided the employee made such election in writing in the prior calendar year at the same time as he/she picks vacation. An employee not making such election at such time shall have Good Friday and/or his/her anniversary date of employment treated as provided in Section 18-5. If a maintenance employee elects to convert Good Friday to an accumulated sick day, such election will be effective on the December 31st of the year in which such Good Friday falls, it being agreed that such election may be revoked on or before April 1st, if the Company decides to operate Saturday schedules on Good Friday. If a maintenance employee elects to convert his/her anniversary date of hire to an accumulated sick day, such election will be effective January 1st of the year in which such anniversary date of hire falls. An employee electing to convert Good Friday to an accumulated sick day who is then not scheduled to work on Good Friday shall have Good Friday off without pay.

C. A maintenance employee may elect to take one of the vacation weeks, to which he/she is entitled, one day at a time, provided:

(i) The maintenance employee makes his/her election to take one week of vacation one day at a time, at least four (4) weeks prior to the vacation picking for the calendar year in which the employee is entitled to take such vacation.

(ii) The maintenance employee has at least five (5) years of service with the Company by the date the employee is required to make his/her election.

A maintenance employee so electing to take one week of his/her vacation one day at a time may not take more than two days of such vacation in any one-week. The maintenance employee must give the Company at least fourteen (14) calendar days' notice prior to the day he/she wishes to take a single vacation day. The Company will notify the employee as to whether he/she may take the requested day at least seventy-two (72) hours prior to the day in question. If there are a greater number of employees requesting a particular day as a single day of vacation than the quota permits for that day at that station, the employee who first requested that particular day as a vacation day shall be given preference.

In the year prior to the vacation year in question, once the election for single day vacations have been made, the Company will adjust its quotas for regular vacation weeks accordingly and will then establish quotas for single day vacations at each garage or shop.

Single vacation days must be taken within the calendar year in which the employee is eligible to take vacation. If, by December 1, the maintenance employee has not designated the use of all of his/her single vacation days, such employee will be paid in the second pay period of December for any unused single vacation days.

D. It is agreed that the Company or the Union shall have the right any time after the first calendar year in which the provisions of subparagraphs A and C above applied to cancel all of the provisions of either subparagraphs A or subparagraph C or both by giving the other party written notice of such cancellation and the provisions so cancelled shall be deemed automatically deleted from the contract and shall be null and void and of no further effect, provided the Company or the Union has given two (2) weeks' notice prior to the notice of cancellation to the other party of the consideration of such cancellation. Upon such notice, the Company and the Union will meet to discuss any and all problems associated with this Section and to make every attempt to resolve such problems. The notice of cancellation must be given prior to the date for the employee elections contemplated by subparagraphs A and C above in order for such cancellation to be effective for the next calendar year. It is further agreed that the provisions of this Section 13-19 will only pertain to Maintenance employees.

13-20 Vacation Picking. Vacation period shall be picked each year on a basis of departmental seniority during a period of no less than four (4) weeks immediately preceding the beginning of the vacation period, and vacations shall be taken during the periods picked, except that an employee who fails to qualify under the two hundred twenty days (220) of work requirement shall have the option of picking a vacation without pay and should he or she subsequently qualify for a paid vacation before December 31st, he or she shall receive pay for the vacation.

For the period 8/1/96 to 12/31/97, a vacation assignment board will be maintained for each work group at each location. In the event that weeks become available for any reason, and provided that the quota for such weeks has previously been filled, within four weeks the vacation assignment board will be updated to include the availability of such open weeks. Any employee in the work group who is less senior than the employee who vacated the weeks may pick the open weeks, provided that he or she submits the designated form to his or her supervisor within five days of the vacation assignment board update. The open weeks will be assigned to the most senior employee applying for such weeks. Any weeks becoming available as a result of this process will be treated as open weeks as described above. It is understood that advance checks normally issued by the payroll department will not be issued if special arrangements are required.

The company and union will meet prior to 12/31/97 to determine the continuation of this picking arrangement. This Agreement may be cancelled by either the company or the union with sunset terms similar to Section 12-33 (D) of the current collective bargaining agreement.

Should an employee voluntarily, through bidding or picking or otherwise, transfer location, classification or work group (listed in Sections 13-5.1(a), 13-5.1(b) and 13-5.1(c) after vacations are picked, he or she shall repick his or her vacation based upon the weeks which remain open, at that time, in his or her new location, classification and/or work group.

(reporting before 12:30 P.M.) or P.M. (reporting after 12:30 P.M.) on such day. The list shall be closed four (4) days prior to the holiday. A bus or train operator who has signed the special list for work on the holiday shall work as assigned or be treated as a missed operator in all respects.

3. A bus or train operator so signifying their desire to work will be assigned to such holiday work on the day preceding the holiday, after work has been assigned to all extra bus or train operators on report. In the event that there is not a sufficient number of employees desiring to work on the holiday to enable the Company to excuse all of the employees who have indicated their desire to be excused, operators shall be excused in order of their signature on the list as long as there is an operator on the work list to cover their run.

4. At 1:30 P.M. on the day preceding the holiday, the Company shall post the names of employees who shall be excused from work on the holiday, and the names of employees who are assigned to work on the holiday. Any employee who is assigned to work and who fails to report for work as scheduled shall be subject to the qualifying requirements for holiday allowance.

5. Bus or train operators who fail to notify the Company of their desire to be excused and who "miss" their assigned report on the holiday will automatically forfeit their holiday allowance, even though they have qualified therefor in all other respects.

6. Employees other than bus or train operators who fail to notify the Company of their desire to be excused and who fail by more than one hour to make

their assigned report on the holiday will automatically forfeit their holiday allowance, even though they have qualified therefor in all other respects.

18-5(c) An employee who would normally be eligible for holiday allowance, and who is on vacation when a holiday occurs, shall be entitled to such allowance and shall not be required to conform to the provisions set forth in Paragraph 18-5(b) herein, except when the holiday occurs on the first or last day of the employee's vacation in which event, if the holiday occurs on the first day of his or her vacation, he or she shall be required to work his or her regularly scheduled hours on his or her last scheduled work-day preceding the holiday and, if the holiday occurs on the last day of his or her vacation, he or she shall be required to work his or her regularly scheduled hours on his or her first scheduled work-day following the holiday, to qualify for such allowance, unless he or she may otherwise be excepted for the reasons stated herein.

18-6 Vacations.

18-6.1 Eligibility for Vacation. Each full-time employee, who shall have had one full year or more of service on or before December 31st of any current year, shall be entitled to a vacation with pay during that year, subject to the following regulations, and provided he or she shall have qualified for such vacation by having worked at least 220 days during the preceding calendar year. If an employee has not satisfied the 220 work day requirement as of December 31 of the prior year, but has worked 220 days during the 52 week period preceding the first day of his or her vacation, he or she shall be eligible for a vacation with pay. An employee who elects to take a vacation without pay due to not qualifying for a paid vacation, and who later in the year meets the 220-work day requirement, shall be paid the amount of his or her vacation pay. The date of employment (date of qualification in the case of an operator employed prior to August 1, 1964) shall be the most recent date from which the employee shall have been continuously in the service of the Company as a full-time employee.

18-6.2 Length of Vacation. The length of an employee's vacation shall be in accordance with the following schedule and shall not be extended by the granting of additional days off without pay:

<u>Length of Vacation</u>	<u>Years of Service on or Before December 31st of Any Current Year</u>
One Week	One Year
Two Weeks	Two Years
Three Weeks	Seven Years
Four Weeks	Thirteen Years
Five Weeks	Twenty Years

18-6.2(a) Proportionate Vacation. An employee who fails to qualify for a paid vacation under the regulations set forth here in shall be entitled to a proportion thereof, provided the sum of the number of days actually worked by him or her, when added to the number of scheduled

work days during which he or she was hospitalized or for which he or she received disability benefits, totals at least two hundred twenty (220) days. The length of his or her vacation shall be the same proportion of his or her normal vacation period that the number of days actually worked by him or her bears to two hundred twenty (220) days, rounded to the nearest full day.

18-6.3 Vacation Season. The vacation season shall be from January 1st to December 31st of each year. The Company shall determine the vacation period within each department by location or subdivision and shall indicate the number of employees at each location of a department or subdivision who shall be permitted to be off on vacation during each week of the calendar year.

18-6.4 Vacation Picking. Except as otherwise provided in Section 13 of this Agreement, vacation period shall be picked each year on a basis of Departmental Seniority during a period of not less than four (4) weeks immediately preceding the beginning of the vacation period, and vacations shall be taken during the periods picked, except that an employee who fails to qualify under the aforementioned two hundred twenty (220) days of work regulation shall have the option of taking a vacation without pay and should he or she subsequently qualify for a paid vacation before December 31st of the current year, he or she shall be paid the amount of his or her vacation pay. Should he or she choose to work during his or her vacation period and should he or she subsequently qualify for a paid vacation sufficiently prior to December 31st of the current year to permit his or her completing his or her vacation before that date, the Company shall schedule the most satisfactory vacation possible for the employee. Open weeks for any reason during the period from the third Sunday in June through August and weeks with a basic holiday, as defined in Paragraph 18-5, shall be posted for five (5) days for repicking.

18-6.5 Vacation Periods of Full Weeks. Vacation periods of one or more full weeks may be taken in separate consecutive or any combination of whole week periods, beginning on Sunday and ending on Saturday.

18-6.6 Vacation Periods Involving Odd Number of Days. Vacation periods of one or more days, involving proportionate vacations or additional days of vacation, may be taken consecutively during periods when the total number of consecutive days may be available on the vacation schedule; or if desired by the employee, the vacation may be split as between a full week and the additional days. If the week and additional days are taken consecutively, the additional days may be taken immediately after the week. If the week and additional days are split, the additional days shall be taken consecutively in a period either beginning with a Sunday or ending with a Saturday, at any time during the vacation period when such days may be available for picking.

18-6.7 Credit for Days Not Worked. For the purpose of determining whether an employee has qualified for vacation, the following days not actually worked by the employee shall be considered as having been worked: Vacation days (whether paid or unpaid); days lost by reason of temporary leave of absence for Union business, the number of which shall be limited as provided in Section 8-1.2 of this Agreement; and days lost as a result of a compensable injury for

which the employee was in no way at fault, in which case such days shall be so considered with respect only to the first vacation following such injury, except that in the event that the injury results in a subsequent recurrence of lost time, days lost but not in excess of forty (40) in the twelve-month period immediately preceding the employee's vacation shall be considered for this purpose as having been worked.

18-6.8 Vacation Pay. A regular bus or train operator, or an extra bus or train operator having a hold-down, shall receive vacation pay at his or her current hourly rate for the number of scheduled hours per week in his or her regular run, and when the vacation is less than a full week, he or she shall receive pay for the scheduled hours per day in the days of his or her run which correspond to the vacation days.

18-6.8(a) An extra bus or train operator not having a hold-down shall be paid on the basis of five (5) eight-hour days per week, and eight (8) hours per day when the vacation is less than a full week.

18-6.8(b) Other employees shall be paid at their regular rate for their regularly scheduled daily and weekly hours of work.

18-6.9 Advance Payment of Vacation Pay. Except when the vacation is less than a full week period, vacation shall be paid in advance with the last regular pay immediately preceding the date of the employee's vacation. The week used as a basis for determining vacation pay shall be the last full week for which the employee is normally paid prior to his or her vacation even though the employee's status as to rate of pay, job or hours of work or otherwise may have changed thereafter. When the vacation is less than a full week period, by reason of the vacation being split as between a full week and additional days, the vacation pay for the additional vacation days shall be paid on the day on which the employee normally would be paid for such days, and he or she shall be paid at his or her regular rate for his or her regularly scheduled hours of work for such days.

18-6.10 Vacation Shall Be Taken. An employee shall actually take his or her vacation in order to receive compensation for it. Vacations are not cumulative.

18-6.11 Property, Belts, Etc. At the request of the Company before leaving on vacation and before advance vacation payment is made to them, employees shall properly account for and return all belts and other Company monies and property.

18-6.12 Failure to Report Before or After a Vacation Period of One Week or More: An employee who fails to report for work on his or her scheduled work-day immediately before or immediately after his or her vacation period, or when the vacation period has been extended by the use of a personal day, floating holiday or individual vacation day, the employee fails to report for work immediately before or immediately after the personal leave day(s), floating holiday or individual vacation day(s) taken immediately before or immediately after his or her vacation period, will, after reporting for and working on the regularly scheduled work-day on which he or

she does report under existing rules and regulations, be automatically suspended for the next following three of his or her scheduled work-days, subject to the grievance procedure in the event of extenuating circumstances provided that the Manager, Supervisor or Department Head, or his or her representative in each case, is advised of the facts at the time that the employee reports for work on the day that he or she returns to work. As provided in Paragraph 8-6 herein, however, any employee who on any occasion without reasonable explanation fails to report within forty-eight (48) consecutive hours shall be considered as having voluntarily quit the employ of the Company. It is understood that the Company shall have the right to require any such employee to provide tangible evidence satisfactory to the Company, to support his or her stated reason for failure to report on his or her scheduled work day immediately before or immediately after his or her vacation, which in the case of claimed illness could include a doctor's certificate describing the nature of the claimed illness.

18-6.13 Separation from Service Before Vacation. Except as provided below, an employee who is otherwise qualified for vacation but who, before taking his or her vacation, resigns, is discharged or is separated from the service of the Company for any reason, except death or layoff due to a force reduction, shall not be given a vacation nor granted compensation in lieu thereof. In the event of death of an employee before having taken his or her vacation, pay for the vacation which he or she would have received shall be paid to his or her estate, provided that at the time of death such employee shall have met all of the qualifications necessary for a paid vacation. In the case of layoff due to a force reduction, an employee who has qualified for a paid vacation shall be paid his or her vacation pay at the time of layoff. An employee who resigns his or her position with the Company shall be entitled to payment for any vacation time due him or her that he or she would have earned from the previous year, provided such employee gives the Company at least four (4) weeks' advance notice that it is his or her intention to resign his or her position with the Company. It shall be understood that no employee shall receive pay for more than one vacation during any one calendar year.

18-6.14 Normal Retirement. An employee retiring at normal retirement age or later shall receive in addition to the vacation he or she is entitled to take during the year of retirement, pay in lieu of vacation in a proportionate amount representing time worked in the year of such retirement which proportionate amount shall be determined by applying the fraction

$$\frac{\text{Number of Days Worked in Calendar Year of Such Retirement}}{260}$$

against the length of vacation as determined by Section 18-6.2.

18-7 Group Life, Accidental Death, Hospital and Surgical Insurance. Subject to the provisions of this Agreement, the Company shall pay the cost of insurance or a percentage or portion thereof, as more particularly described in these provisions, which will provide eligible full-time employees with the following benefits, with the understanding that the Company shall

select the carrier of each class of insurance and that the carrier shall issue to each insured employee an insurance certificate describing the benefits provided.

18-7.1 Life Insurance. The Company shall provide twenty thousand dollars (\$20,000.00) of life insurance upon the life of each full-time employee who has been in the employ of the Company for six (6) months (after the completion of his or her training period, if any) and who is actively employed on such date. The effective date of such insurance on employees in the employ of the Company less than six (6) months shall be the first day of the month next following completion of said six months of employment, provided the employee is then actively at work. In the event that he or she is not then actively at work, his or her insurance shall be effective on the first day of the month next following the date of his or her return to work. Except in the case of employees terminating for pension, the life insurance shall be cancelled effective with the termination of an employee from the Company's employ for any reason including layoff, but the terminated employee shall be privileged to convert his or her insurance to an individual policy then written by the insurance carrier, provided the employee makes application to the insurance company within thirty-one (31) days following termination of employment and provided he or she pays the premium applicable to his or her age and class of insurance.

Should the Company consider, elect or be required to terminate such participation, termination of employee coverage shall not be effective until a replacement plan is selected.

18-7.3 (d) Replacement Plan Selection. A replacement plan will be selected as follows:

A joint committee comprised of equal numbers of Union and Management representatives will prepare a Request for Proposals for a cost-effective, single medical insurance carrier to provide a replacement plan of benefits that is equivalent to the Core Plan POS 298 (205) and has a substantially similar provider directory.

2. In the event that the NFTA Board of Commissioners approves a proposal for a replacement plan, the Union will assist in the transition to the new carrier. In the event that the NFTA Board of Commissioners rejects the initial proposals, the Company, at its sole discretion, shall have the right to have a Request for Proposals issued again in accordance with the above-described process. Any replacement plan ultimately selected by the Board of Commissioners will provide for the reimbursements specified in Section 18-7.3 (b) above or the Company may continue to pay those reimbursements directly to employees, at its option.
3. Any dispute as to the meaning of the terms “equivalent” or “substantially similar” shall be settled by resort to the grievance process contained in the cba. The parties agree that any arbitration resulting from such a grievance shall be given priority in scheduling.
